

PROJECT TITLES – CHEMISTRY	
GRADE XI	
1. Study of the acidity of different samples of tea leaves and to observe the variation in colour of tea extract in different media.	ADITI CHATURVEDI
2. Study the effect of acids and bases on the tensile strength of a fibre	ADITYA B SHRIKANTH
3. Study of the effect of potassium bisulphate as food preservative under various conditions (temperature, concentration, time, etc.).	ADYASA
4. Determination of caffeine in tea samples.	AKSHAT NEMA
5. Checking the bacterial contamination in drinking water by testing sulphide ion.	ANARVA VYAS
6. Comparative study of the rate of fermentation of following materials: potato juice, carrot juice.	ANJALI AWASTHI
7. Dyeing of wool, silk and cotton in malachite green	ANUSHA PYATI
8. Comparative study of the rate of fermentation of following materials: grape juice, banana juice.	ARAAV KAR MOHAPATRA
9. Comparative study of commercial antacids	ARUN KUMAR G
10. Paper chromatography (Separation of colour components of leaves and flowers).	ASMI RAYCHAUDHURI
11. Study the effect of acids and bases on the tensile strength of a fibre	ATHIRA ARUN KUMAR
12. Study of the effect of potassium bisulphate as food preservative under various conditions (temperature, concentration, time, etc.)	AUGUSTIN ANTONY PUTHOOR
13. Comparative study of the rate of fermentation of following materials: potato juice, carrot juice.	AVANTIKA JAYARAJ
14. Checking the bacterial contamination in drinking water by testing sulphide ion.	CHARITH S REDDY
15. Dyeing of wool, silk and cotton in malachite green.	CHINMAY KRISHNA
16. Comparative study of the rate of fermentation of following materials: grape juice, banana juice.	CHIRANTANA S
17. Comparative study of commercial antacids	DHARRSHAN V
18. Paper chromatography (Separation of colour components of leaves and flowers).	DHRUV ASTHANA
19. Study of the acidity of different samples of tea leaves	DIVA

and to observe the variation in colour of tea extract in different media.	
20. Determination of caffeine in tea samples.	DIVYA SURESH
21. Effects of heat on Vitamin C in tomatoes.	EKANTH N
22. Analysis of honey.	ISHAN K ARSHAD
23. Determination of contents of cold drinks.	LEKHANA P
24. Preparation of potash alum from scrap aluminium.	MANAN M
25. Investigation of the foaming capacity of different washing soaps and the effect of addition of sodium carbonate on their foaming capacity.	MAYANK SHIRALI
26. Study of food adulterants.	MEHEK ASHWIN DUGAR
27. Analysis of fruit and vegetable juices.	NATHAN DANIEL B
28. Preparation of cuprammonium rayon threads.	NISHANT HARIHARAN
29. To prepare pigments and poster paints.	NITHYASHREE SRINIVASAN
30. Elevation in boiling point of water.	NORAIZ IBRAHIM
31. Investigation of the foaming capacity of different washing soaps and the effect of addition of sodium carbonate on their foaming capacity.	P.G.YASHWANTH
32. Study of food adulterants.	PADMANABHA P
33. Effects of heat on Vitamin C in tomatoes.	PRANJAL SANTRA
34. Analysis of fruit and vegetable juices.	R SAI PRANAV
35. To prepare pigments and poster paints.	RISHABH BISHT
36. Preparation of cuprammonium rayon threads	RIYA M
37. Determination of contents of cold drinks.	SHARANYA DAS
38. Elevation in boiling point of water.	SWARA KANSAL
39. Analysis of honey.	TIRTH ASHOKKUMAR PATEL
40. Preparation of potash alum from scrap aluminium.	TRINABH RAMESH
